

GREEN THINGS IN MARKET

Greens, Beans, Irish Potatoes, in Their Colors of Fruit and Vegetables.

RHUBARB THE MOST TEMPTING DELICACY

Long Stalks Selling at Ten Cents the Bunch, with Nice Cabbage and Leaf Lettuce to Support the Plant.

The grocery racks are positively irresistible now with their gorgeous red and yellow fruit and the fresh green-topped things, and for the woman who is not absolutely impervious to temptation, it will be economy to do the marketing over the phone. Rhubarb, so crisp and tender and of a beautiful waxy pink and green, is among the choice things that have not been obtainable for a while back. It sells at 10 cents a bunch and the stalks are long. Pine, clear white cabbage is to be had now in heads of good size that sell for 5 and 10 cents each or for 2 cents a pound. Head lettuce has a sticky look, as though it needed more sun, and much of it resembles the cabbage leaf in color rather than the pretty green leaf so desirable. It is 10 and 15 cents a head, too. The leaf lettuce is nice, however, and sells for 5 cents a bunch. Tomatoes are 25 cents a pound, but they are big and fine. Celery looks rugged and sturdy and will need a deal of trimming before using. It sells for 5 cents a stalk. Cranberries are 10 cents a quart; fresh green onions, beets and radishes are 5 cents a bunch; new carrots and turnips are 10 cents a bunch; beets are 15 cents; cucumbers are 15 and 20 cents each; mushrooms 75 cents a pound; artichokes 25 cents each; cauliflower and it is not very nice—20 to 30 cents a head; spinach 30 cents a peck; green peppers 5 cents each; new potatoes 10 cents a pound; Irish potatoes 25 cents a peck and 25 cents a bushel; sweet potatoes 40 cents a peck; new potatoes 10 cents a pound, three pounds for 25 cents.

There are strawberries in market now, but they are 50 cents a "quart" basket, and not quite as tempting as they will be next spring. Oranges range from 15 to 40 cents a dozen; lemons are 20 cents a dozen; bananas, and they are nothing extra in quality, are 15 to 25 cents a dozen; and malaga grapes 20 to 30 cents a pound. Some nice grape fruit is to be had, but much of it is brown and soft and not at all tempting. It sells for 5 to 15 cents each.

The butchers and poultry dealers are beginning to quote "broilers" again. A few of the markets have them and they range from 20 to 40 cents each. Turkey is 15 to 20 cents a pound. Turkey is 25 cents; chickens, 15 to 16 cents; geese, 14 cents; chickens, 15 to 16 cents; and guinea hens 18 cents a pound. Chickens and turkeys are sold mostly with head and feet on, but are drawn and dressed.

Package creamery butter went back to 25 cents a pound Friday morning after selling from 20 to 23 cents for nearly a month. Good dairy butter is to be had at 25 cents a pound and the demand for oleomargarine has been renewed.

The "strictly fresh" eggs are 22 cents a dozen and the storage 25 cents a dozen.

Although domestic cheese has come up, wholesale price, this advance will not affect the retail price, which continues at 20 cents a pound. Most of the larger dealers have a large supply on hand and are not contemplating any advance.

Fine looking honey sold at 20 cents a frame Friday morning. Fresh honey is 10 cents a pound and fresh cottage cheese 10 cents a pound. Few of the dealers claim to have genuine New Orleans molasses now and most of them are very candid about the maple syrup. Very good cooking molasses is to be had for 25 cents a quart and corn syrup is 15 cents a quart. The best cider vinegar is to be had for 40 cents a gallon.

The best granulated and C sugar sells eighteen and nineteen pounds for \$1, and beet sugar twenty pounds for \$1.

Laundry soap has advanced from 15 to 25 cents a box, wholesale, and now sells eight bars for 25 cents. All laundry soaps have advanced.

Rice is 10 cents a pound and three pounds for 25 cents. Navy beans are five pounds for 25 cents.

Flowers for Table Decoration.
The woman who would decorate her table with fresh flowers has a charming variety from which to choose just now. The fresh spring flowers are in and in most all the colors, too. Tulips have been in for more than a week and sell for 75 cents a dozen, in yellow, white and red. Daffodils are 75 cents a dozen. Narcissus are 75 cents a dozen and hyacinths 50 and 75 cents. The hyacinths are to be had in the white only just now, but the colored Dutch hyacinths will be in a little later. Violets are \$1.50 a hundred, or 40 cents for twenty-five. One of the novelties is the green carnation. Of course this coloring is done artificially, but so cleverly that it looks as natural as if it were the pink or red. These flowers are furnished only by special order and cost \$1.50 a dozen. They are a St. Patrick's day specialty.

AFFAIRS AT SOUTH OMAHA

Board of Education Elects New Superintendent of the Schools.

PRINCIPAL GRAHAM OF HIGH SCHOOL NAMED

Three Years Contract Made with Him by Board—George F. McCracken of Greeley New Principal of High School.

A great interest attached to the meeting of the Board of Education last night. The majority members took the reins in their own hands and proceeded to do things.

They elected N. M. Graham, superintendent of the city schools for a term of three years, the same to take effect July 1. This has the effect of ousting J. A. McLean. Mr. Graham is the present principal of the high school and is well known in the city. He is a graduate of the University of Nebraska. Mr. McLean's term expires in July, and it appears that the present board intended to make sure that the question of his successor be settled before the spring elections. A contract will be entered into at once with the new superintendent. George F. McCracken, at present principal of the schools at Greeley, Colo., will be the new principal of the high school. He is a graduate of Creighton university and has had five years' experience in schools of Nebraska. Aside from this, the regular bills for the month were allowed.

Condition of City Funds.

The city clerk yesterday issued his regular monthly statement of the condition of the city funds. Most of the funds, with the exception of the street repair fund, are in good shape. The report shows that up to the present time the city has expended \$25,574.74. There remains in the treasury for the balance of the year \$13,851.11. The heaviest expense so far is the interest on the bonded debt, amounting to \$27,500.20. The collections for licenses, fines, interest on balances, scavenger and revenue has reached a total of \$118,181.

Track to Brewery Laid.

There is considerable rejoicing at the fact that the spur track has been practically completed to the establishment. The brewery has been waiting for this accommodation for many years; and it is this lack which has made delays in the otherwise rapid development of the industry. The first engine went over the track last Friday and the steel has been laid as far as the grade extends, which is about a quarter of a mile west of the brewery. The work of ballasting has not been completed, owing to the excessively cold weather of the past two or three weeks. A gang men was working yesterday and the ties will all be in position soon. It is thought by the last of the week that the first cars will be placed for the accommodation of the brewery.

On the line of this track it is rumored that several industries will be established before the year closes. The Westworth Furniture company has selected a site. It is said that the St. Louis Brick and Tile company is negotiating for the purchase of fifteen acres of land lying just west and south of the brewery, where there is a large hill of clay of remarkably good texture for the manufacture of all the products the company wishes to produce at this point. The property belongs to L. J. Mattison. The company is said to have made tests in several parts of the city for the proper kind of material, but has decided that the site in contemplation is the best to be had. The clay is good for the ordinary building brick and the hydraulic pressed brick as well.

Club After Viaduct Repairs.

Acting upon the notification of the general manager of the Omaha & Council Bluffs Street Railway company given last Monday night offering to construct a track over West L street as soon as the viaduct should be declared strong enough to support the traffic, the Northwest Improvement club had a meeting last night. It has put more hope in the breasts of those long waiting and patient residents than has been there for some weeks. They expect to pay a visit to the city council Monday evening for the purpose of stimulating them to make the necessary repairs to the viaduct. The railroad and the Union Stock yards are said to be the parties
